

Elevate Patient Care & Imaging Safety with the **High-Pressure Syringe Kit, VitalLink brought to you by Vitalgear®**

In modern radiology, precision is non-negotiable. VitalLink Syringes & Tubings for Pressure Injectors are specially designed for the safe and precise delivery of contrast media during CT, MRI and Cath-lab procedures.

Why VitalLink Syringes are Essential?

Our syringes are manufactured using high-quality polycarbonate material to ensure absolute compatibility and consistent performance under high-pressure conditions.

Key Advantages

No Artifacts - MRI Products

100% Non-magnetic for scan integrity

Smooth Delivery

Better patient experience and comfort

Rock-Solid Safety

Lower extravasation and leak risks

Rapid Setup

Consistent flow for faster operations

Technical Performance

High Pressure: Built for high-viscosity injections

Smooth Flow: Effortless plunger movement

Precision Graduations: Accurate volume measurement

Design & Safety

Clean Materials: Latex-free and DEHP-free

Sterility: EO sterilized, Single Use

Workflow Efficiency

Secure Luer: Leak-proof connection points
Compatibility: Fits leading injector systems

The Vitalgear® Difference

VitalLink™ Syringes & Tubings are engineered for reliability and precision. By using high-quality materials, our kits ensure scan integrity while supporting high-pressure injections for high-viscosity contrast media.

Our focus on patient comfort and clinical safety reduces risks such as extravasation and interruption during critical diagnostic procedures.

Enhance your imaging standards with technology that delivers results.

Name	Description	Ref#
VitalLink Cardio	150ml syringe with J fill tube	VGM7-150
VitalLink MR	65ml & 115ml syringes, Y Tube with 1 check valve (180cm), 2 Spikes	VGSS-65/115
VitalLink CTST	2- 200ml syringes, Y Tube with 2 check valves, J fill Tube	VGSD-200/200
VitalLink CTSA	190ml syringe with J fill Tube	VGSA-190
VitalLink Connect DT	Y Tube with 2 check valves - 150cm	VGDT-2
VitalLink Connect ST	Coiled Tube - 150cm VGST-1	VGST-1
